**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Roger H. Lee on 05/22/2009.
3. The application has been amended as follows:

Cancel Claim 8.

4. Currently, claim 1 is amended, claims 3 and 4 are canceled, new claim 8 is canceled by Examiner's amendment, and claims 1, 2 and 5-7 are pending.
5. Pending claims 1, 2 and 5-7 are allowed.

***Reason for allowance***

6. The following is an examiner's statement of reasons for allowance: The closest art Galleguillos et al. (US 6,361,768 B1) teaches an amphotolytic copolymer having at least one anionic functional group and at least one cationic functional group, wherein the copolymer has a glass transition temperature of above 50 degree C, and is in a form of a

fine powder with submicron particle size. The copolymer can be used for paper coating. However, Galleguillos does not teach the claimed at least one ink receiving layer containing organic particle of the copolymer because the organic particles of Galleguillos dissolve with water upon use, (i.e. the coated paper cannot have the copolymer in particles form), and this is because of the presence of the non-ionic hydrophilic monomer in the organic particle, wherein the presence of the non-ionic hydrophilic monomer in the organic particle is required for the invention of Galleguillos.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
